## Andrew Mixdorf AIA

**bnim** ASSOCIATE | ARCHITECTURE

Andrew is an Associate in BNIM's Kansas City office and is an Iowa State University graduate from Northeastern Iowa. As an architect, he has years of experience on acoustically and visually sensitive spaces, including recital halls, recording studios, and museum galleries. He is driven by the simplification of spatial organization, detailing, and physical relationships to elevate design regardless the level of complexity.

Andrew has played a significant role in the design, documentation, and implementation of numerous projects, including the University of Missouri School of Music, the John F. Kennedy Center for the Performing Arts REACH Expansion, and the Kansas City International Airport Garage, in addition to a number of projects at the Nelson-Atkins Museum of Art, most notably the Bloch Impressionist Galleries.
