Sarah Hirsch LEED AP BD+C

bnim ASSOCIATE PRINCIPAL

Sarah has worked on a wide variety of project types with a diverse range of clients including governmental, corporate, institutional, retail and residential. She focuses primarily on specification writing and brings to each project a vast knowledge of materials and systems. Many of her projects focus on integrating sustainable design including multiple building designed to achieve Living Building Status. Sarah has played a key role in developing BNIM's "green" master specification and has consulted on a number of projects assisting other firms to provide LEED specifications.
